

THIS COMPANY ABIDES BY THE

CODE OF ETHICS

OF THE

ASSOCIATION OF AVIATION MAINTENANCE ORGANISATIONS

- ❖ To assert competency only in services for which adequate equipment and personnel are available, and to be truthful in advertising and in sales.
- ❖ To have a clear understanding with the customer as to the extent and kind of services to be performed.
- ❖ To carry out the services in a full and fair manner that conforms to appropriate regulations, service letters and notices and any other directive issued by the manufacturers and/ or the responsible aviation authorities.
- ❖ To use parts or materials of known origin, that are serviceable and of the correct specification only.
- ❖ To approve for flight an aircraft, only if fully satisfied of its airworthiness.
- ❖ To assign to each flight of a customer's aircraft, necessary for its collection, testing or delivery, only pilots who hold current certificates of qualification and who are capable of carrying out the task assigned satisfactorily.
- ❖ To carry liability insurance in amounts sufficient enough to provide adequate and reasonable protection for the customer and for the public against liability arising from its business, with specific reference to liabilities from the (test) flying of customer's equipment.
- ❖ To charge fair fees, and only for services rendered.
- ❖ To maintain a reputation for honesty, integrity and fair dealing as a respectable representative of the aviation maintenance community.
- ❖ To protect the image of courteous, efficient and professional service.
